*Live to fly.*

Your 5th Generation Blade has increased stability, power, speed and lift. The all new design pushes more raw power and lift into the legendary powerful canopy, with increased stability and speed giving all air junkies the ultimate weapon.

The Blade V turns faster than previous models and holds the power better through the turn. You will sense that the kite is very reactive to control inputs and has a more powerful feel giving longer, higher floating jumps for you to enjoy!
