■ TRACKER || INFO

- The new Tracker deck has a unique shape designed specifically for beginners and intermediate riders. The solid wide platform is cut away for easy grabs. Rugged and stable, this board is ideal for all types of riding styles.

Full details of both boards available from www.flexifoil.com

■ HUNTER || INFO

- The composite Canadian maple Hunter deck incorporates four layers of strategically placed tri-axial fibreglass, offering outstanding pop and shock absorption.

The Hunter features a strong yet lightweight hollow 12mm axle, ergonomic footstraps with unparallel adjustability and the first kite-specific tyre for unrivalled grip and control.

Full details of both boards available from www.flexifoil.com
